

Employment Eligibility Verifications (and RE-Verifications)

Just Another Benefit of Our Total Talent Solutions

When it comes to staffing your workforce, hiring workers without proper vetting can result in potential financial penalties up to \$2,700 per instance on each I-9. That's why e-Verify is important — a powerful online tool that confirms the eligibility of employees to legally work in the United States.

The TalentLaunch network of staffing and recruitment firms offers comprehensive employment verifications as part of our total staffing services, providing you with compliant candidates and peace of mind.
